Certified Public Accountants 2500 Tanglewilde, Suite 340 Houston, Texas 77063

### **Independent Auditors' Report**

Board of Directors Fort Bend County Levee Improvement District No. 17 Fort Bend County, Texas

We have audited the accompanying financial statements of the governmental activities and each major fund of Fort Bend County Levee Improvement District No. 17, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these basic financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient to provide a basis for our audit opinions.

**Board of Directors** Fort Bend County Levee Improvement District No. 17 Fort Bend County, Texas

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Fort Bend County Levee Improvement District No. 17, as of December 31, 2018, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

#### Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements as a whole. The Texas Supplementary Information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The Texas Supplementary Information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied to the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

Management's Discussion and Analysis

(This page intentionally left blank)

### **Using this Annual Report**

Within this section of the financial report of Fort Bend County Levee Improvement District No. 17 (the "District"), the District's Board of Directors provides a narrative discussion and analysis of the financial activities of the District for the fiscal year ended December 31, 2018. This analysis should be read in conjunction with the independent auditors' report and the basic financial statements that follow this section.

In addition to this discussion and analysis, this annual report consists of:

- The District's basic financial statements;
- Notes to the basic financial statements, which provide additional information essential to a full understanding of the data provided in the financial statements;
- Supplementary information required by the Governmental Accounting Standards Board (GASB) concerning the District's budget; and
- Other Texas supplementary information required by the District's state oversight agency, the Texas Commission on Environmental Quality (TCEQ).

#### Overview of the Financial Statements

The District prepares its basic financial statements using a format that combines fund financial statements and government-wide statements onto one financial statement. The combined statements are the Statement of Net Position and Governmental Funds Balance Sheet and the Statement of Activities and Governmental Funds Revenues, Expenditures and Changes in Fund Balances. Each statement contains an adjustments column which quantifies the differences between the government-wide and fund level statements. Additional details of the adjustments are provided in Note 2 to the basic financial statements.

### Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District, both long-term and short-term. The District's government-wide financial statements consist of the *Statement of Net Position* and the *Statement of Activities*, which are prepared using the accrual basis of accounting. The *Statement of Net Position* includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the residual reported as net position. Over time, changes in net position may provide a useful indicator of whether the financial position of the District as a whole is improving or deteriorating.

Accounting standards establish three components of net position. The net investment in capital assets component represents the District's investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets. Resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The restricted component of net position consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties. The unrestricted component of net position represents resources not included in the other components.

The Statement of Activities reports how the District's net position has changed during the fiscal year. All revenues and expenses are included on this statement, regardless of whether cash has been received or paid.

#### **Fund Financial Statements**

The fund financial statements include the *Governmental Funds Balance Sheet* and the *Governmental Funds Revenues, Expenditures and Changes in Fund Balances.* The focus of fund financial statements is on specific activities of the District rather than the District as a whole, reported using modified accrual accounting. These statements report on the District's use of available financial resources and the balances of available financial resources at the end of the year. Except for the General Fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties, governmental statutes or regulations.

For further discussion on the government-wide and fund financial statements, please refer to Note 1 in the financial statements.

### Financial Analysis of the District as a Whole

The District's net position at December 31, 2018, was \$5,794,427. A comparative summary of the District's overall financial position, as of December 31, 2018 and 2017, is as follows:

|                                      | 2018          | 2017          |
|--------------------------------------|---------------|---------------|
| Current and other assets             | \$ 26,719,467 | \$ 23,312,289 |
| Capital assets                       | 48,670,110    | 50,493,662    |
| Total assets                         | 75,389,577    | 73,805,951    |
| Total deferred outflows of resources | 2,258,941     | 2,450,576     |
| Current liabilities                  | 3,981,346     | 3,720,075     |
| Long-term liabilities                | 57,145,330    | 61,583,064    |
| Total liabilities                    | 61,126,676    | 65,303,139    |
| Total deferred inflows of resources  | 10,727,415    | 10,517,926    |
| Net position                         |               |               |
| Net investment in capital assets     | (6,053,300)   | (8,076,904)   |
| Restricted                           | 2,009,509     | 2,011,825     |
| Unrestricted                         | 9,838,218     | 6,500,541     |
| Total net position                   | \$ 5,794,427  | \$ 435,462    |

The total net position of the District increased during the current fiscal year by \$5,358,965. A comparative summary of the District's *Statement of Activities* for the past two years is as follows:

|  | 2018          | 2017          |
|--|---------------|---------------|
| Revenues                                 |               |               |
| Property taxes, penalties and interest   | \$ 10,486,400 | \$ 10,393,405 |
| Intergovernmental                        | 139,335       | 157,743       |
| Other                                    | 324,706       | 112,968       |
| Total revenues                           | 10,950,441    | 10,664,116    |
| Expenses                                 |               |               |
| Current service operations               | 2,676,162     | 2,687,627     |
| Debt interest and fees                   | 2,251,085     | 2,034,431     |
| Developer interest                       | 11,704        | 146,472       |
| Debt issuance costs                      |               | 604,017       |
| Depreciation and amortization            | 731,320       | 720,942       |
| Total expenses                           | 5,670,271     | 6,193,489     |
| Change in net position before other item | 5,280,170     | 4,470,627     |
| Other item                               |               |               |
| Change in estimate of due to developer   | 78,795        |               |
| Change in net position                   | 5,358,965     | 4,470,627     |
| Net position, beginning of year          | 435,462       | (4,035,165)   |
| Net position, end of year                | \$ 5,794,427  | \$ 435,462    |

### Financial Analysis of the District's Funds

The District's combined fund balances, as of December 31, 2018, were \$15,576,219, which consists of \$12,950,607 in the General Fund, \$2,605,022 in the Debt Service Fund, and \$20,590 in the Capital Projects Fund.

### General Fund

A comparative summary of the General Fund's financial position as of December 31, 2018 and 2017 is as follows:

| <br>2018         |  | 2017   |
|------------------|--|--|
| \$<br>18,814,243 | \$   | 15,426,887   |
| 102.020          |  | 115.000  |
| \$<br>192,838    | \$   | 115,238  |
| 5,670,798        |  | 5,548,195  |
| 12,950,607       |  | 9,763,454  |
| \$<br>18,814,243 | \$   | 15,426,887   |
| \$<br>\$         | \$ 18,814,243<br>\$ 192,838<br>5,670,798<br>12,950,607 | \$ 18,814,243 \$<br>\$ 192,838 \$<br>5,670,798<br>12,950,607 |

A comparative summary of the General Fund's activities for the current and prior fiscal year is as follows:

|                               | <br>2018        | <br>2017        |
|-------------------------------|-----------------|-----------------|
| Total revenues                | \$<br>5,872,456 | \$<br>5,425,890 |
| Total expenditures            | (2,681,333)     | (2,491,013)     |
| Revenues over expenditures    | 3,191,123       | 2,934,877       |
| Other changes in fund balance | (3,970)         |                 |
| Net change in fund balance    | \$<br>3,187,153 | \$<br>2,934,877 |

The District manages its activities with the objectives of ensuring that expenditures will be adequately covered by revenues each year and that an adequate fund balance is maintained. The District's primary financial resources in the General Fund are from a property tax levy, which is dependent upon assessed values in the District and the maintenance tax rate set by the District. Property tax revenues increased from prior year because assessed values increased from prior year

#### Debt Service Fund

A comparative summary of the Debt Service Fund's financial position as of December 31, 2018 and 2017 is as follows:

|  | <br>2018        |    | 2017      |
|--|-----------------|----|-----------|
| Total assets   | \$<br>7,731,781 | \$ | 7,694,642 |
|  |                 |    |           |
| Total liabilities                                    | \$<br>9,577     | \$ | 24,465    |
| Total deferred inflows                               | 5,117,182       |    | 5,006,369 |
| Total fund balance                                   | <br>2,605,022   |    | 2,663,808 |
| Total liabilities, deferred inflows and fund balance | \$<br>7,731,781 | \$ | 7,694,642 |

A comparative summary of the Debt Service Fund's activities for the current and prior fiscal year is as follows:

|                               | <br>2018        | 2017            |
|-------------------------------|-----------------|-----------------|
| Total revenues                | \$<br>5,053,775 | \$<br>5,300,468 |
| Total expenditures            | (5,112,561)     | (5,422,349)     |
| Revenues under expenditures   | (58,786)        | (121,881)       |
| Other changes in fund balance |                 | <br>434,248     |
| Net change in fund balance    | \$<br>(58,786)  | \$<br>312,367   |

The District's financial resources in the Debt Service Fund in both the current year and prior year are from property tax revenues. The difference between these financial resources and debt service requirements resulted in changes in fund balance each year. It is important to note that the District sets its annual debt service tax rate as recommended by its financial advisor, who monitors projected

cash flows in the Debt Service Fund to ensure that the District will be able to meet its future debt service requirements.

During the previous fiscal year, the District issued \$13,125,000 in refunding bonds to refund \$11,920,000 of its outstanding Series 2008 and Series 2008A bonds. This refunding saved the District \$1,720,037 in future debt service requirements.

#### Capital Projects Fund

A comparative summary of the Capital Projects Fund's financial position as of December 31, 2018 and 2017 is as follows:

|                                    | 2018 |         |    | 2017    |  |  |
|------------------------------------|------|---------|----|---------|--|--|
| Total assets                       | \$   | 173,443 | \$ | 171,311 |  |  |
|                                    |      |         |    | _       |  |  |
| Total liabilities                  | \$   | 152,853 | \$ | 1,751   |  |  |
| Total fund balance                 |      | 20,590  |    | 169,560 |  |  |
| Total liabilities and fund balance | \$   | 173,443 | \$ | 171,311 |  |  |

A comparative summary of activities in the Capital Projects Fund for the current and prior fiscal year is as follows:

|                               | <br>2018        |    | 2017        |
|-------------------------------|-----------------|----|-------------|
| Total revenues                | \$<br>281       | \$ | 190         |
| Total expenditures            | <br>(153,221)   |    | (2,004,812) |
| Revenues under expenditures   | (152,940)       |    | (2,004,622) |
| Other changes in fund balance | <br>3,970       |    | 2,035,000   |
| Net change in fund balance    | \$<br>(148,970) | \$ | 30,378      |

During the current year, the District used surplus bond proceeds from the Series 2017 and Series 2015 bonds to reimburse the District's developer \$153,221 for certain construction projects completed in previous fiscal years. During the previous fiscal year, the District issued its Series 2017 Unlimited Tax Park Bonds.

### General Fund Budgetary Highlights

The Board of Directors adopts an annual unappropriated budget for the General Fund prior to the beginning of each fiscal year. The Board did not amend the budget during the fiscal year.

Since the District's budget is primarily a planning tool, actual results varied from the budgeted amounts. Actual net change in fund balance was \$3,187,153 greater than budgeted. The *Budgetary Comparison Schedule* on page 32 of this report provides variance information per financial statement line item.

### **Capital Assets**

The District has entered into financing agreements with its developers for the financing of the construction of capital assets within the District. Developers will be reimbursed from proceeds of future bond issues or other lawfully available funds. These developer funded capital assets are recorded on the District's financial statements upon completion of construction.

Capital assets held by the District at December 31, 2018 and 2017 are summarized as follows:

|                                      | 2018          | 2017          |
|--------------------------------------|---------------|---------------|
| Capital assets not being depreciated |               |               |
| Land and improvements                | \$ 34,736,138 | \$ 35,198,172 |
| Capital assets being depreciated     |               |               |
| Infrastructure                       | 14,097,113    | 15,097,252    |
| mmastructure                         | , ,           |               |
| Other facilities                     | 6,779,701     | 6,481,336     |
|                                      | 20,876,814    | 21,578,588    |
| Less accumulated depreciation        |               |               |
| Infrastructure                       | (4,831,186)   | (4,568,847)   |
| Other facilities                     | (2,111,656)   | (1,714,251)   |
|                                      | (6,942,842)   | (6,283,098)   |
| Depreciable capital assets, net      | 13,933,972    | 15,295,490    |
|                                      |               |               |
| Capital assets, net                  | \$ 48,670,110 | \$ 50,493,662 |

Capital asset additions during the current year include streetscape improvements to service Easton Avenue, Phase 2 and a Tiger Dam. It should be noted that certain of these additions were constructed by the developer in previous years.

During the current year, the District revised its estimate of the amounts due to developer for certain capital assets and adjusted the values of those assets accordingly.

### Long-Term Debt and Related Liabilities

As of December 31, 2018, the District owes \$5,321,879 to developers for completed projects. The District intends to reimburse the developer from proceeds of future bond issues or other lawfully available funds. The estimated cost is trued up when the developer is reimbursed.

At December 31, 2018 and 2017, the District had total bonded debt outstanding as shown below:

| Series         | 2     | 2018     | 2017 |            |
|----------------|-------|----------|------|------------|
| 2008           | \$    | -        | \$   | 350,000    |
| 2008A          |       | -        |      | 420,000    |
| 2009           | 7     | ,040,000 |      | 7,480,000  |
| 2010           | 3     | ,820,000 |      | 4,045,000  |
| 2011 Park      | 6     | ,680,000 |      | 6,905,000  |
| 2013 Park      | 4     | ,280,000 |      | 4,535,000  |
| 2014 Refunding | 7     | ,890,000 |      | 7,960,000  |
| 2015 Park      | 3     | ,950,000 |      | 4,185,000  |
| 2016 Refunding | 6     | ,730,000 |      | 7,085,000  |
| 2017 Refunding | 12    | ,565,000 |      | 12,765,000 |
| 2017 Park      | 1     | ,920,000 |      | 2,035,000  |
|                | \$ 54 | ,875,000 | \$   | 57,765,000 |

At December 31, 2018, the District had \$74,360,000 unlimited tax bonds authorized, but unissued for the purposes of acquiring, constructing and improving the levee and drainage systems within the District; \$3,145,000 for parks and recreational facilities; and \$60,015,000 for refunding purposes.

### Next Year's Budget

In establishing the budget for the next fiscal year, the Board considered various economic factors that may affect the District, most notably projected revenues from property taxes and the projected cost of operating the District. A comparison of next year's budget to current year actual amounts for the General Fund is as follows:

|                               | 2018 Actual   | 2019 Budget   |
|-------------------------------|---------------|---------------|
| Total revenues                | \$ 5,872,456  | \$ 6,141,495  |
| Total expenditures            | (2,681,333)   | (6,141,495)   |
| Revenues over expenditures    | 3,191,123     |               |
| Other changes in fund balance | (3,970)       |               |
| Net change in fund balance    | 3,187,153     |               |
| Beginning fund balance        | 9,763,454     | 12,950,607    |
| Ending fund balance           | \$ 12,950,607 | \$ 12,950,607 |

### **Property Taxes**

The District's property tax base increased approximately \$42,140,000 for the 2018 tax year from \$1,839,862,297 to \$1,882,002,789. This increase was primarily due to new construction in the District and increased property values. For the 2018 tax year, the District has levied a maintenance tax rate of \$0.30 per \$100 of assessed value and a debt service tax rate of \$0.27 per \$100 of assessed value, for a total combined tax rate of \$0.57 per \$100. These are the same rates levied for the 2017 tax year.

### Note 1 – Summary of Significant Accounting Policies

The accounting policies of Fort Bend County Levee Improvement District No. 17 (the "District") conform with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board. The following is a summary of the most significant policies:

#### Creation

The District was organized, created and established pursuant to an order of the Commissions Court of Fort Bend County, Texas dated July 9, 2002, and operates in accordance with the Texas Water Code, Chapters 49 and 57. The Board of Directors held its first meeting on September 5, 2002 and the first bonds were sold on July 26, 2007.

The District's primary activities include construction, maintenance and operation of flood control, drainage and recreational facilities. The District has contracted with various consultants to provide services to operate and administer the affairs of the District. The District has no employees, related payroll or pension costs.

### **Reporting Entity**

The District is a political subdivision of the State of Texas governed by a three-member Board of Directors appointed by the Fort Bend County Commissioners Court. The Governmental Accounting Standards Board (GASB) has established the criteria for determining whether an entity is a primary government, a component unit of a primary government or a related organization. To qualify as a primary government, a government must have a separately elected governing body, be legally separate and be fiscally independent of other governments. Fiscal independence implies that the government has the authority to adopt a budget, levy taxes, set rates, and/or issue bonds without approval from other governments. Since the District does not have an elected governing body, it is not a primary government. A component unit is a legally separate government for which the elected officials of a primary government are financially accountable. The criteria used to determine financial accountability is whether the primary government appoints a voting majority of the component unit's governing body and (1) is able to impose its will on the component unit or (2) the component unit creates a financial benefit/burden for the primary government. While the County appoints the Directors of the District, it has no further financial accountability for the District. Under GASB's criteria, the District is a related organization, not a component unit, of the County for financial reporting purposes. Additionally, no other entities meet the criteria for inclusion in the District's financial statements as component units.

#### Government-Wide and Fund Financial Statements

Government-wide financial statements display information about the District as a whole. These statements focus on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. Interfund activity, if any, has been removed from these statements. These aggregated statements consist of the *Statement of Net Position* and the *Statement of Activities*.

### Note 1 - Summary of Significant Accounting Policies (continued)

### Government-Wide and Fund Financial Statements (continued)

Fund financial statements display information at the individual fund level. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for a specific purpose. Each fund is considered to be a separate accounting entity. Most governments typically have many funds; however, governmental financial statements focus on the most important or "major" funds with non-major funds aggregated in a single column. The District has three governmental funds, which are all considered major funds.

The following is a description of the various funds used by the District:

- <u>The General Fund</u> is used to account for the operations of the District and all other financial transactions not reported in other funds. The principal sources of revenue are property taxes. Expenditures include costs associated with the daily operations of the District.
- <u>The Debt Service Fund</u> is used to account for the payment of interest and principal on the District's general long-term debt. The primary source of revenue for debt service is property taxes. Expenditures include costs incurred in assessing and collecting these taxes.
- <u>The Capital Projects Fund</u> is used to account for the expenditures of bond proceeds for the construction of the District's flood control, drainage, and recreational facilities.

As a special-purpose government engaged in a single governmental program, the District has opted to combine its government-wide and fund financial statements in a columnar format showing an adjustments column for reconciling items between the two.

### Measurement Focus and Basis of Accounting

The government-wide financial statements use the economic resources measurement focus and the full accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenue in the year for which they are levied.

The fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized in the accounting period in which it becomes both available and measurable to finance expenditures of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Revenues susceptible to accrual include property taxes and interest earned on investments. Property taxes receivable at the end of the fiscal year are treated as deferred inflows because they are not considered available to pay liabilities of the current period. Expenditures are recognized in the accounting period in which the liability is incurred, if measurable, except for unmatured interest on long-term debt, which is recognized when due.

Note 2 further details the adjustments from the governmental fund presentation to the government-wide presentation.

### Note 1 – Summary of Significant Accounting Policies (continued)

#### Use of Restricted Resources

When both restricted and unrestricted resources are available for use, the District uses restricted resources first, then unrestricted resources as they are needed.

#### Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Receivables from and payables to external parties are reported separately and are not offset, unless a legal right of offset exists. At December 31, 2018, an allowance for uncollectible accounts was not considered necessary.

### **Interfund Activity**

During the course of operations, transactions occur between individual funds. This can include internal transfers, payables and receivables. This activity is combined as internal balances and is eliminated in both the government-wide and fund financial statement presentation.

#### **Capital Assets**

Capital assets do not provide financial resources at the fund level, and, therefore, are reported only in the government-wide statements. The District defines capital assets as assets with an initial cost of \$5,000 or more and an estimated useful life in excess of one year. Capital assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at acquisition value, which is the price that would be paid to acquire the asset on the acquisition date. The District has not capitalized interest incurred during the construction of its capital assets. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized.

Depreciable capital assets, which primarily consist of bridges, recreational facilities and drainage facilities, are depreciated using the straight-line method as follows:

| Assets         | Useful Life |
|----------------|-------------|
| Infrastructure | 20-45 years |
| Other          | 10-20 years |

The District's detention facilities and levee system are considered improvements to land and are non-depreciable.

### Note 1 – Summary of Significant Accounting Policies (continued)

#### Deferred Inflows and Outflows of Financial Resources

A deferred inflow of financial resources is the acquisition of resources in one period that is applicable to a future period, while a deferred outflow of financial resources is the consumption of financial resources in one period that is applicable to a future period. A deferred inflow results from the acquisition of an asset without a corresponding revenue or assumption of a liability. A deferred outflow results from the use of an asset without a corresponding expenditure or reduction of a liability.

At the fund level, property taxes receivable not collected within 60 days of fiscal year end do not meet the availability criteria required for revenue recognition and are recorded as deferred inflows of financial resources. Additionally, collections of the 2018 property tax levy are not considered current year revenues and, consequently, are also reported as deferred property taxes.

Deferred outflows of financial resources at the government-wide level are from a refunding bond transaction in which the amount required to repay the old debt exceeded the net carrying amount of the old debt. This amount is being amortized to interest expense. Deferred inflows of financial resources at the government-wide level consist of the 2018 property tax levy, which was levied to finance the 2019 fiscal year.

#### Net Position – Governmental Activities

Governmental accounting standards establish the following three components of net position:

Net investment in capital assets – represents the District's investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets.

Restricted – consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties.

Unrestricted – resources not included in the other components.

#### Fund Balances – Governmental Funds

Governmental accounting standards establish the following fund balance classifications:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact. The District does not have any nonspendable fund balances.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments. The District's restricted fund balances consist of unspent bond proceeds in the Capital Projects Fund and property taxes levied for debt service in the Debt Service Fund.

### Note 1 – Summary of Significant Accounting Policies (continued)

### Fund Balances – Governmental Funds (continued)

Committed - amounts that can be used only for specific purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. The District does not have any committed fund balances.

Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances and does not have any assigned fund balances.

Unassigned - all other spendable amounts in the General Fund.

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

#### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses/expenditures during the period reported. These estimates include, among others, the collectability of receivables; the useful lives and impairment of capital assets; the value of amounts due to developer; and the value of capital assets for which the developers have not been fully reimbursed. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from the estimates.

### Note 2 – Adjustment from Governmental to Government-wide Basis

### Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position

| Total fund balance, governmental funds  |                              | \$<br>15,576,219 |
|---|------------------------------|------------------|
| Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds.  Historical cost Less accumulated depreciation Change due to capital assets  | \$ 55,612,952<br>(6,942,842) | 48,670,110       |
| The difference between the face amount of bonds refunded and the amount paid to the escrow agent is recorded as a deferred difference on refunding in the <i>Statement of Net Position</i> and amortized to interest expense. It is not recorded in the fund statements because it is not a financial resource.   |                              | 2,258,941        |
| Amounts due to the District's developers for prefunded construction are recorded as a liability in the <i>Statement of Net Position</i> .   |                              | (5,321,879)      |
| Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. The difference consists of:  Bonds payable, net Interest payable on bonds Change due to long-term debt   | (54,793,451)<br>(656,078)    | (55,449,529)     |
| The unavailable portion of property taxes receivable and collections of the 2018 property tax levy are reported as deferred inflows in the fund financial statements. In the government wide statements, however, deferred inflows consist of the entire 2018 property tax levy.  Fund level deferred property taxes  Government wide level deferred property taxes  Change due to property taxes | 10,787,980<br>(10,727,415)   | 60,565           |
| Total net position - governmental activities  |                              | \$<br>5,794,427  |

### Note 2 – Adjustment from Governmental to Government-wide Basis (continued)

# Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities

| Net change in fund balances - total governmental funds   |               | \$<br>2,979,397 |
|--|---------------|-----------------|
| Governmental funds do not report revenues that are not available to pay current obligations. In contrast, such revenues are reported in the <i>Statement of Activities</i> when earned. The difference is for property taxes and related penalties and interest.           |               | 23,929          |
| Governmental funds report capital outlays for developer reimbursements and construction costs as expenditures in the funds; however, in the <i>Statement of Activities</i> , the cost of capital assets is charged to expense over the estimated useful life of the asset. |               |                 |
| Capital outlays  | \$<br>298,365 |                 |
| Depreciation expense   | (731,320)     | (432,955)       |
| The issuance of long-term debt provides current financial resources to   |               |                 |
| governmental funds, while the repayment of principal uses current financial  |               |                 |
| resources. However, neither transaction has any effect on net assets. Other  |               |                 |
| elements of debt financing are reported differently between the fund and government wide statements.   |               |                 |
| Principal payments   | 2,890,000     |                 |
| Interest expense accrual   | (180,201)     |                 |
|  |               | 2,709,799       |
| Revisions in the estimate of due to developer do not provide financial   |               |                 |
| resources in the funds; but may result in an adjustment to net position in   |               |                 |
| Statement of Activities.   |               | 78,795          |
| Change in net position of governmental activities  |               | \$<br>5,358,965 |

### Note 3 – Deposits and Investments

### Deposit Custodial Credit Risk

Custodial credit risk as it applies to deposits (i.e. cash and certificates of deposit) is the risk that, in the event of the failure of the depository institution, a government will not be able to recover its deposits or will not be able to recover collateral securities. The *Public Funds Collateral Act* (Chapter 2257, Texas Government Code) requires that all of the District's deposits with financial institutions be covered by federal depository insurance and, if necessary, pledged collateral held by a third party custodian. The act further specifies the types of securities that can be used as collateral. The District's written investment policy establishes additional requirements for collateralization of deposits.

### Note 3 – Deposits and Investments (continued)

#### **Investments**

The District is authorized by the *Public Funds Investment Act* (Chapter 2256, Texas Government Code) to invest in the following: (1) obligations, including letters of credit, of the United States or its agencies and instrumentalities, including Federal Home Loan Banks, (2) direct obligations of the State of Texas or its agencies and instrumentalities, (3) certain collateralized mortgage obligations, (4) other obligations, which are unconditionally guaranteed or insured by the State of Texas or the United States or its agencies or instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, (5) certain A rated or higher obligations of states and political subdivisions of any state, (6) bonds issued, assumed or guaranteed by the State of Israel, (7) certain insured or collateralized certificates of deposit and share certificates, (8) certain fully collateralized repurchase agreements, (9) bankers' acceptances with limitations, (10) commercial paper rated A-1 or P-1 or higher and a maturity of 270 days or less, (11) no-load money market mutual funds and no-load mutual funds, with limitations, (12) certain guaranteed investment contracts, (13) certain qualified governmental investment pools and (14) a qualified securities lending program.

The District has adopted a written investment policy to establish the principles by which the District's investment program should be managed. This policy further restricts the types of investments in which the District may invest.

As of December 31, 2018, the District's investments consist of the following:

|                         |              | Carrying      | Percentage |        | Weighted<br>Average |
|-------------------------|--------------|---------------|------------|--------|---------------------|
| Туре                    | Fund         | Value         | of Total   | Rating | Maturity            |
|                         | <del> </del> |               | Of Total   | Raung  | Maturity            |
| Certificates of deposit | General      | \$ 1,681,920  |            |        |                     |
|                         | Debt Service | 732,831       |            |        |                     |
|                         |              | 2,414,751     | 20%        | N/A    | N/A                 |
|                         |              |               |            |        |                     |
| TexSTAR                 | General      | 8,110,689     |            |        |                     |
|                         | Debt Service | 1,812,145     |            |        |                     |
|                         |              | 9,922,834     | 80%        | AAAm   | 35 days             |
| Total                   |              | \$ 12,337,585 | 100%       |        |                     |

The District's investments in certificates of deposit are reported at cost.

#### Note 3 – Deposits and Investments (continued)

#### **TexSTAR**

The District participates in Texas Short Term Asset Reserve fund (TexSTAR) which is managed by First Southwest, a division of Hilltop Securities, Inc., and J.P. Morgan Investment Management, Inc. First Southwest provides participant and marketing services while J.P. Morgan provides investment management services. Custodial and depository services are provided by J.P. Morgan Chase Bank N.A. or its subsidiary.

The District's investment in TexSTAR is reported at fair value because TexSTAR uses fair value to report investments. Governmental accounting standards establish the following hierarchy of inputs used to measure fair value: Level 1 inputs are based on quoted prices in active markets, Level 2 inputs are based on significant other observable inputs, and Level 3 inputs are based on significant unobservable inputs. The District's investment in TexSTAR is measured using published fair value per share (level 1 inputs).

Investments in TexSTAR may be withdrawn via wire transfer on a same day basis, as long as the transaction is executed by 4 p.m. ACH withdrawals made by 4 p.m. will settle on the next business day.

#### **Investment Credit and Interest Rate Risk**

Investment credit risk is the risk that the investor may not recover the value of an investment from the issuer, while interest rate risk is the risk that the value of an investment will be adversely affected by changes in interest rates. The District's investment policies do not address investment credit and interest rate risk beyond the rating and maturity restrictions established by state statutes.

#### Note 4 – Interfund Balances

Amounts due to/from other funds at December 31, 2018, consist of the following:

| Receivable Fund | Payable Fund      | Amounts |       | Purpose                              |
|-----------------|-------------------|---------|-------|--------------------------------------|
| General Fund    | Debt Service Fund | \$      | 2,801 | Maintenance tax collections not      |
|                 |                   |         |       | remitted as of year end              |
| General Fund    | Debt Service Fund |         | 5,000 | Arbitrage analysis costs paid by the |
|                 |                   |         |       | General Fund                         |

Amounts reported as internal balances between funds are considered temporary balances and will be paid during the following fiscal year.

In the previous fiscal year, the District recorded an internal balance between the General Fund and Capital Projects Fund for bond issuance costs paid by the General Fund. It was anticipated that the General Fund would be reimbursed by the Capital Projects Fund during the current year. Since the reimbursement did not take place, the internal balance was eliminated, which resulted in an internal transfer in the amount of \$3,970 being reported between the funds.

### Note 5 – Capital Assets

A summary of changes in capital assets, for the year ended December 31, 2018, is as follows:

|  | Beginning<br>Balances | Additions/<br>Adjustments | Change in<br>Estimate | Ending<br>Balances |
|--|-----------------------|---------------------------|-----------------------|--------------------|
| Capital assets not being depreciated     |                       |                           |                       |                    |
| Land and improvements                    | \$ 35,198,172         | \$ -                      | \$ (462,034)          | \$ 34,736,138      |
| Capital assets being depreciated         |                       |                           |                       |                    |
| Infrastructure                           | 15,097,252            |                           | (1,000,139)           | 14,097,113         |
| Other facilities                         | 6,481,336             | 298,365                   |                       | 6,779,701          |
|  | 21,578,588            | 298,365                   | (1,000,139)           | 20,876,814         |
| Less accumulated depreciation            |                       |                           |                       |                    |
| Infrastructure                           | (4,568,847)           | (333,915)                 | 71,576                | (4,831,186)        |
| Other facilities                         | (1,714,251)           | (397,405)                 |                       | (2,111,656)        |
|  | (6,283,098)           | (731,320)                 | 71,576                | (6,942,842)        |
| Subtotal depreciable capital assets, net | 15,295,490            | (432,955)                 | (928,563)             | 13,933,972         |
| Capital assets, net                      | \$ 50,493,662         | \$ (432,955)              | \$ (1,390,597)        | \$ 48,670,110      |

Depreciation expense for the current year was \$731,320.

During the current year, it was determined that the District's developers have been substantially reimbursed for the construction of certain capital assets in the District. Capital asset values have been adjusted accordingly.

### Note 6 – Due to Developers

The District has entered into financing agreements with its developers for the financing of the construction of the District's facilities. Under the agreements, the developers will advance funds for the construction of facilities to serve the District. The developers will be reimbursed from proceeds of future bond issues or other lawfully available funds, subject to approval by TCEQ, as applicable. The District does not record the capital asset and related liability on the government-wide statements until construction of the facilities is complete. The initial cost is estimated based on construction costs plus 10-15% for engineering and other fees. Estimates are trued up when the developer is reimbursed.

Changes in amounts due to developers during the year are as follows:

| Due to developers, beginning of year          | <b>Þ</b> | 6,791,271   |
|---|----------|-------------|
| Change in estimate of due to developer        |          | (1,469,392) |
| Developer reimbursements                      |          | (148, 365)  |
| Developer funded construction and adjustments |          | 148,365     |
| Due to developers, end of year                | \$       | 5,321,879   |

### Note 6 – Due to Developers (continued)

As discussed in Note 5, the District revised its estimate of amounts due to developer for certain capital assets and, as a result, has reduced the reported liability.

### Note 7 – Long–Term Debt

Long-term debt is comprised of the following:

| Bonds payable         | \$ | 54,875,000 |
|-----------------------|----|------------|
| Unamortized discounts |    | (764,518)  |
| Unamortized premium   |    | 682,969    |
|                       | \$ | 54,793,451 |
| Due within one year   | \$ | 2,970,000  |

The District's bonds payable at December 31, 2018, consists of unlimited tax bonds as follows:

|                   |                        |                   | _                 | Maturity Date,<br>Serially, | Interest                | 0.11              |
|-------------------|------------------------|-------------------|-------------------|-----------------------------|-------------------------|-------------------|
| Series            | Amounts<br>Outstanding | Original<br>Issue | Interest<br>Rates | Beginning/<br>Ending        | Payment<br>Dates        | Call<br>Dates     |
| 2009              | \$ 7,040,000           | \$ 11,000,000     | 4.125% - 6.0%     | September 1, 2010/2034      | March 1,<br>September 1 | September 1, 2018 |

|                   | \$ 54,875,000          |                   |                   |                             |                         |                   |

### Note 7 – Long–Term Debt (continued)

Payments of principal and interest on all series of bonds are to be provided from taxes levied on all properties within the District. Investment income realized by the Debt Service Fund from investment of idle funds will be used to pay outstanding bond principal and interest. The District is in compliance with the terms of its bond resolutions.

At December 31, 2018, the District had authorized but unissued bonds in the amount of \$74,360,000 for acquiring, constructing and improving the levee and drainage systems within the District; \$3,145,000 for park and recreational facilities and \$60,015,000 for refunding purposes.

The change in the District's long term debt during the year is as follows:

| Bonds payable, beginning of year | \$<br>57,765,000 |
|----------------------------------|------------------|
| Bonds retired                    | <br>(2,890,000)  |
| Bonds payable, end of year       | \$<br>54,875,000 |

As of December 31, 2018, annual debt service requirements on bonds outstanding are as follows:

| Year | Principal |            | Interest |            | <br>Totals       |  |
|------|-----------|------------|----------|------------|------------------|--|
| 2019 | \$        | 2,970,000  | \$       | 1,951,969  | \$<br>4,921,969  |  |
| 2020 |           | 3,025,000  |          | 1,859,945  | 4,884,945        |  |
| 2021 |           | 3,085,000  |          | 1,768,169  | 4,853,169        |  |
| 2022 |           | 3,135,000  |          | 1,681,207  | 4,816,207        |  |
| 2023 |           | 3,195,000  |          | 1,592,556  | 4,787,556        |  |
| 2024 |           | 3,255,000  |          | 1,499,362  | 4,754,362        |  |
| 2025 |           | 3,315,000  |          | 1,395,601  | 4,710,601        |  |
| 2026 |           | 3,390,000  |          | 1,287,802  | 4,677,802        |  |
| 2027 |           | 3,460,000  |          | 1,169,889  | 4,629,889        |  |
| 2028 |           | 3,560,000  |          | 1,040,378  | 4,600,378        |  |
| 2029 |           | 3,645,000  |          | 905,689    | 4,550,689        |  |
| 2030 |           | 3,740,000  |          | 766,977    | 4,506,977        |  |
| 2031 |           | 3,840,000  |          | 621,645    | 4,461,645        |  |
| 2032 |           | 3,940,000  |          | 470,533    | 4,410,533        |  |
| 2033 |           | 2,715,000  |          | 311,780    | 3,026,780        |  |
| 2034 |           | 2,795,000  |          | 198,083    | 2,993,083        |  |
| 2035 |           | 1,810,000  |          | 79,621     | 1,889,621        |  |
|      | \$        | 54,875,000 | \$       | 18,601,206 | \$<br>73,476,206 |  |

### Note 8 – Property Taxes

On September 10, 2005, the voters of the District authorized the District's Board of Directors to levy taxes annually for use in financing general operations limited to \$1.50 per \$100 of assessed value. The District's bond resolutions require that property taxes be levied for use in paying interest and principal on long-term debt and for use in paying the cost of assessing and collecting taxes. Taxes levied to finance debt service requirements on long-term debt are without limitation as to rate or amount.

All property values and exempt status, if any, are determined by the Fort Bend Central Appraisal District. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

Property taxes are collected based on rates adopted in the year of the levy. The District's 2018 fiscal year was financed through the 2017 tax levy, pursuant to which the District levied property taxes of \$0.57 per \$100 of assessed value, of which \$0.30 was allocated to maintenance and operations and \$0.27 was allocated to debt service. The resulting tax levy was \$10,487,215 on the adjusted taxable value of \$1,839,862,297.

Property taxes levied each October are intended to finance the next fiscal year and are, therefore, not considered available for the District's use during the current fiscal year. Consequently, 2018 levy collections in the amount of \$2,150,256 have been included with deferred property taxes and are recorded as deferred inflows of resources on the *Governmental Funds Balance Sheet*. On the government-wide *Statement of Net Position*, the full 2018 tax levy of \$10,727,415 is reported as deferred inflows. These amounts will be recognized as revenue in 2019.

Property taxes receivable, at December 31, 2018, consisted of the following:

| Current year taxes receivable   | \$ | 8,577,159 |
|---------------------------------|----|-----------|
| Prior years taxes receivable    |    | 49,871    |
|                                 |    | 8,627,030 |
| Penalty and interest receivable |    | 10,694    |
| Total property taxes receivable | \$ | 8,637,724 |

### Note 9 – Cost Sharing Agreement with the University of Houston

On November 24, 2003, the District entered into an agreement with the University of Houston ("UH"), which owns approximately 256 acres of land within the District. This land was unprotected by levees and threatened by flooding from the Brazos River. The District prepared a plan of reclamation for the construction of levees and reclaimed all of the property within the boundaries of the District including the UH tract. Under Texas law, property owned by UH and used for a public purpose is exempt from property taxes. UH has agreed to pay its share of the costs of the levees and other drainage improvements included in the District's reclamation plan for the benefit received from the existence of such levees and other improvements and for the ongoing costs to maintain and operate the levee system. During the current fiscal year, the District recognized revenues of \$139,335 based on 2018 operating expenses.

### Note 10 - Maintenance Agreement with Telfair Community Association

In December 2006, the District and Telfair Community Association, Inc. ("TCA") entered into a maintenance agreement (the "Agreement"), as amended in 2009, and restated and amended on March 8, 2012, September 11, 2014 and August 18, 2016, for the purpose of providing a coordinated approach to the maintenance of recreational facilities constructed within the District by both the District and TCA. The Agreement will automatically renew for each calendar year, unless either party gives written notice of termination by September 1 of a given year. The District and TCA both acknowledge that it is in the best interest of both parties for the parks and recreational facilities within the District to be maintained to a consistent high standard. The District shall contract with TCA to manage the maintenance of District facilities. TCA contracted with Ridgewood Landscaping, Inc. for the maintenance of facilities for a term from January 1, 2017 through December 31, 2018. During the current fiscal year, the District paid \$1,451,438 to TCA related to this maintenance agreement.

### Note 11 – Risk Management

The District is exposed to various risks of loss related to torts: theft of, damage to and destruction of assets; errors and omissions; and personal injuries. The risk of loss is covered by commercial insurance. There have been no significant reductions in insurance coverage from the prior year. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

#### Note 12 – Subsequent Event

On March 26, 2019, the District issued its \$9,350,000 Series 2019 Unlimited Tax Refunding Bonds to refund \$6,160,000 of its outstanding Series 2009 bonds and \$2,920,000 of its outstanding Series 2010 bonds. This refunding will save the District \$914,227 in future debt service requirements.

Required Supplementary Information

### Fort Bend County Levee Improvement District No. 17 Required Supplementary Information - Budgetary Comparison Schedule - General Fund For the Year Ended December 31, 2018
